The **Illinois Articulation Initiative (IAI)** is a statewide transfer agreement, which is transferable among more than 100 participating college or universities in Illinois. IAI works best for students who know they are going to transfer but undecided on the college or university that will grant their baccalaureate degree.

Colleges and universities participating in the IAI agree to accept a “package” of IAI general education courses in lieu of their own comparable lower-division general education requirements. Keep in mind, the IAI General Education transfers as a *package*. Course-to-course transfer is not guaranteed.
