

# How to print your class schedule from SOLAR

## Getting Started

**Step 1:** Log into the SOLAR System

**Step 2:** Select Student from the Main Menu.

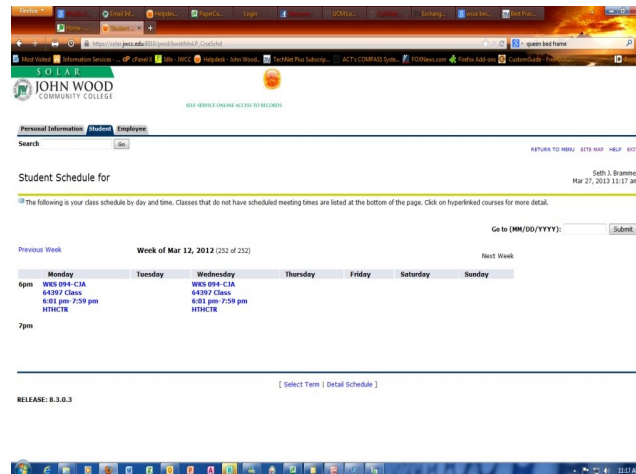

**Step 3:** Choose either Course Schedule or Detailed Course Schedule

# Course Schedule

## Course Schedule

The Course Schedule will give you a week-by-week grid of the classes you will be taking *for that week only*.

This is a good schedule for checking online, when you're not sure what classes are coming up. If you have both morning and night classes, this schedule can be very long, and take several pages to print.

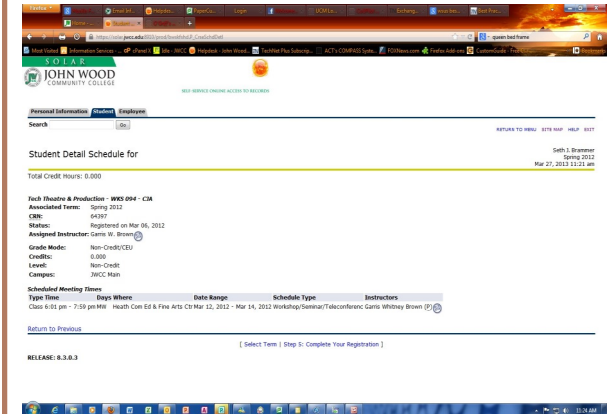

**Note:**  
*If you are printing your schedule in order to buy books at the bookstore, print your Detailed Course Schedule!*

# Detailed Course Schedule

## Detailed Course Schedule

The Detailed Course Schedule displays a lot of information on each class you are signed up for in the semester.

**Note:**  
*If you are printing your schedule in order to buy books at the bookstore, print your Detailed Course Schedule!*

## PRECAUTIONS TO USE AROUND JWCC COMPUTERS

Use capped drinks or drinks with lids. No food around the equipment. Cell phones should be set to low or off. If you receive a phone call, we request that you leave the room to talk on the phone.
