

# Private Tutors Available to the Community

## DESCRIPTION

This list contains contact information for anyone looking for a private tutor for high school students (or younger) within our community. The following Upward Bound tutors have made themselves available to the community as a private tutor, independent of the Upward Bound program. Although our tutors are screened, hired and trained by the TRIO Upward Bound Program, tutors on this list are not paid by Upward Bound when tutoring students that are not in the

Upward Bound Program. Tutoring sessions are scheduled according to the availability of the tutor and the student that needs tutoring. This list is a reference resource provided to the community by the Upward Bound Program. The Upward Bound Program and John Wood Community College are not responsible for any tutoring or any issues related to tutoring students that are not in the Upward Bound Program.

*Tutors listed will charge tutoring rates that they set themselves for students not in the Upward Bound Program.*
