Surgical Technology

A surgical technologist assures that all members of the surgical team adhere to aseptic techniques during surgery and also handles the instruments, supplies and equipment necessary during the surgical procedure. He/she is able to anticipate the needs of the surgeon and has the necessary knowledge and ability to sustain quality patient care during the operative procedure.

Potential Careers

Certified Surgical Technologist, Surgeon's Scrub/ Scribe, Organ Procurement Team, Surgical Equipment Sales Representative, Sterile Processing Manager, Traveling Surgical Technologist

Classes in...

Biology, Microbiology, Anatomy & Physiology, Medical Terminology, Professional Issues for Surgical Tech, Introduction to Surgical Technology, Intro to Psychology, Surgical Technology I, Surgical Technology II, and, Rhetoric & Composition or Introduction to Speech.

Type of Work

The surgical technologist is an integral member of the surgical team, working closely with the surgeon, anesthesiologist, registered nurse and other surgical personnel. A surgical technologist has expertise in the theory and application of sterile technique, with primary responsibility for maintaining a sterile field before, during and after a surgical procedure.
