2.473

Analyze Problems

2.47

Find solutions to problems using quantitative skills

2.6

Infer conclusions using data and evidence from a variety of sources

2.492

Use deductive reasoning to find logical solutions

2.375

Conceptualize Ideas

2.43

Develop a knowledge base through observation or study

2.320

Formulate a question that guides their research or problem solving

2.573

Evaluate Results

2.60

Continuous improvement	2.7
Critically examine results	2.521
Test Solutions	2.52
Perform experiments to test a hypothesis	2.476
Test a solution	2.7
Diversity, Equity, and Inclusion	2.307
Apply Core Values in Decision Making	2.38
Student demonstrates reflection	2.375
Student interacts respectfully and appropriately	
Evaluate the Interdependencies and Conflicts of Diverse Com	2.38
Student describes how historical cultural conflicts	2.375
Recognize the Diversity and Unity of Humanity	2.3
Student describes common elements shared by all cultures	2.181
Student describes the differences	2.441
Essential Skills	2.584
Accountability	2.58
Student maintains composure, even in difficult situations	3
Student takes initiative and follows through with application of learned content and skills	2.513
Student takes responsibility for their academic progress and completes all projects on time	2.621
Integrity	
Student demonstrates behaviors consistent with ethical reasoning and understanding	
Information Literacy	2.321

Ethically and Accurately Use the Sources

Student demonstrates understanding of the ethical and legal restrictions on the use of information

Evaluates the Accuracy of the Information Found

2.30

Student uses multiple sources to validate information accuracy

2.111

Student uses sources based on facts

2.5

Locate the Appropriate Resources to Find Information

2.67

Student utilizes library resources to locate information

Student utilizes web effectively to locate information

2.666
