

JOHN WOOD COMMUNITY COLLEGE

Earn college credits in high school

Career Academy

Enroll today in **Welding**

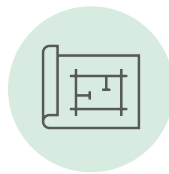

Begin your career path before graduating high school!

Looking for a great paying career that is in high demand? JWCC's Welding Career Academy is for you! This academy allows high school students the opportunity to earn a **Basic Welding Certificate** in only 16 credit hours, and you receive hands-on training! You will learn side-by-side with experienced welders! Courses include safety, blueprint reading, welding and more!

OCCUPATIONAL HEALTH & SAFETY

Content is based on the Manufacturing Skill Standards Council (MSSC), Certified Production Technician curriculum and OSHA standards.

BLUEPRINT READING

Learn to prepare, assemble and tack weld parts together, complying to a print using proper materials and tools, utilizing metric measurements, AWS welding symbols, and fabrication principles.

BASIC/COMMERCIAL WELDING

Focus on proper weld safety, machine setup, and welding techniques of basic and commercial welding.
